

# GMP Non-Denominational Mission Agency

In the mid-1980s, Korean mission agencies (Korea of OMF, GBT of Wycliffe, GMTC) that had been working with other international mission organizations combined into one corporate organization, GMF. GMP (Global Mission Pioneers) was established in 1987 as an overseas sending organization in charge of pioneering mission work belonging to GMF (Global Missionary Fellowship).

GMP (Global Mission Pioneers) is a mission organization that combines international experience with the strength and characteristics of the Korean Church. It was founded to go out to preach the gospel, pioneer the community of faith, and make disciples of the Lord. Currently, 377 GMP missionaries have been sent to 50 countries to expand the kingdom of God.

## Mission Statement of GMP:

To glorify God in extending His kingdom holistically as we establish, serve and build up the believing communities, the body of Jesus Christ, in the places, spheres and peoples that have limited access to the gospel.
